

11. GROUP MENTORING SESSIONS

WHO IS THIS COURSE FOR?

Group mentoring, can be effective within a business setting as a team focus session to identify strengths and improvement areas within a team.

The group mentoring environment is also works well within schools and colleges to help a class identify career goals or work on team goals or life skills.

WHY ATTEND THIS COURSE?

As this course is tailored to a specific groups needs or requirements, there are many benefits to attending the course. By having the opportunity to discuss team dynamics, goals or targets can help progress an idea or a project forward in order to achieve goals, meet deadlines or hit targets. In team situations there are often 'sticking points' which can be resolved by facilitated group mentoring sessions.

HOW LONG IS THE COURSE? HOW MUCH WILL IT COST?

Both the course length and the cost will vary. We can design and deliver a course to the specific requirements of the company or your customers. We offer a free of charge consultation meeting to discuss course options and the length of the course.

TRAINING METHODS AND TECHNIQUES

We offer a wide range of interactive and engaging training techniques. As we all learn differently, each course has a visual, auditory (listening), kinaesthetic (movement) and retrospective, (looking back – reflective) element to appeal to every learner. We adapt according to the diverse needs and abilities of the individual or group.

We also offer extensive public speaking and interviewing experience to offer each training programme.

Please note: All our courses are currently unaccredited. However we can design accredited courses based on specific outcomes as long as your organisation or company has the relevant accreditation for the course.
