

17. COMMERCIAL BUSSINESS PACKAGES

Are you the manager of a private commercial business? Do you require a training package or seminar designed or delivered to your colleagues? Perhaps you already have material or a concept you wish to incorporate. We offer a free consultation meeting to discuss your requirements and design a bespoke training package for your company.

Alternatively, if you are a registered training provider and would like us the support you in the delivery of an examination based course we are happy to provide this service.

WHO IS THIS COURSE FOR?

However big or small your business is - we can work with you. The courses that we design and deliver are specifically for you, your managers, your staff team or your customers. We base the content and message of the course on the consultation meeting we have with you. If you do not have an initial idea or concept for a course, why not allow us to dream for you.

Otherwise you can provide us with a specific remit and we are equally as happy to design and deliver a package to meet these requirements.

WHY ASK US TO DESIGN AND DELIVER A COURSE ON BEHALF OF YOUR COMPANY?

A course designed or delivered by **OUTSIDE THE BOX EDUCATION** is so much more than just a course. We aim to inspire and motivate individuals, teams and organisations to want more out of life and be the best that they can be.

All our courses are thought provoking and motivating enabling people to achieve their goals or identify the actions required to make this happen in the future.

WHAT DOES YOUR BESPOKE TRAINING PACKAGE COVER?

Every training package will be designed around your company, your team and any individual needs of the team or your customers. Depending on your requirements and the complementary consultation meeting we can design and deliver courses including the content and length of course that you require.

Please note: If you have not seen a course or a training programme that meets your companies specific needs please speak to us and we only be too happy to assist you to **‘Think Outside The Box and make it happen!**

HOW LONG IS THE COURSE? HOW MUCH WILL IT COST?

Both the course length and the cost will vary. We can design and deliver a course to the specific requirements of the company or your customers. We offer a free of charge consultation meeting to discuss course options and the length of the course.

TRAINING METHODS AND TECHNIQUES

We offer a wide range of interactive and engaging training techniques. As we all learn differently, each course has a visual, auditory (listening), kinaesthetic (movement) and retrospective, (looking back – reflective) element to appeal to every learner. We adapt according to the diverse needs and abilities of the individual or group.

We also offer extensive public speaking and interviewing experience to offer each training programme.

Please note: All our courses are currently unaccredited. However we can design accredited courses based on specific outcomes as long as your organisation or company has the relevant accreditation for the course.
